3 WEEKS BEFORE MOVE

- Plan Your Move: Hire/schedule movers, moving truck and/or family/friends to help.
- Request time off at work or if necessary, submit resignation or transfer paperwork.
- De-Clutter: Donate and throw away items and clothing. Organize for a smooth move.
- Get Your Packing Supplies Together: Boxes, packing tape, sharpies and/or labels, bubble-wrap/newspapers/grocery bags to wrap breakables in.
- Start packing. Pack seldom used things first. *(See our Packing Hacks on the last page.)*
- Make plans for child and pet care on moving day.
- Contact your child's school and notify of move. Plan for transfer if necessary. To determine which school your child will attend, contact USD 259 Wichita Public Schools Student Records & Enrollment Services: (316) 973.4498
- If you haven't already, get your homeowner's insurance policy started and let them know the details of closing and moving days. If you were renting, let them know when to discontinue coverage.
- Eat what's in your fridge and pantry. You don't want to move a bunch of food.
- Stop/don't buy anything in bulk until you're in your new home.
- Schedule cleaning service or make a plan for cleaning your current residence after moving day.
- If you're moving a long distance, schedule a car tune up before the trip/move.
- Setup utility **starts** for the day of closing on your new home and **stops** at your current residence for the day after you move (to give yourself a buffer):

PACKING HACKS

1. Save money on packing material and minimize boxes and bags by wrapping your dishes and other kitchen breakables in clothing.
2. Prevent spills and messes by covering liquids in plastic wrap before putting the lid on.
3. Put paper/Styrofoam plates between breakable plates.
4. As you take furniture and other items apart for moving, put the screws and small accessories in a plastic bag and tape the bag to the item/piece of furniture.
5. Prevent jewelry tangling by threading necklaces and bracelets through straws and/or toilet paper rolls.
6. Label cables, cords and chargers as you pack devices and tape the cord/cable to the device.
7. "Freeze" dresser drawers with Glad Press'N Seal for easy moving and unpacking.
8. Keep pillows and blankets clean, and make them easy to find while moving by putting them in garbage bags. They double as great padding that way too.
9. Color code boxes per room with either different tape, a sticker or different colored markers to help everyone have a good idea of what goes where for faster moving.
10. Pack books in suit cases with wheels.
